

PLANTING

GROUPS OF FLOWERING PERENNIALS

1 Create groups with the plants, leaving them enough room to grow.

2 Dig a hole for the plant.

3 Immerse the 1st plant's rootball thoroughly.

4 Remove the pot from the rootball.

5 Place the plant in the hole that you have dug.

6 Press down the soil around the plant.

7 Repeat steps 2 to 6 with the other plants.

8 Regularly water the new plants.
