

PLANTING

FLOWERING ROSES

1 Choose the right rose for the spot. Get advice when you buy.

2 Position the rose and check the future result.

3 Dig a planting hole which is deep and wide enough.

4 Carefully remove the pot from the rootball.

5 Now place the rose in the planting hole.

6 Immediately water very thoroughly.

7 Carefully press down the soil around the rose.

8 Water the new rose regularly.
